

SYNTHETIC DYE - BRIGHT RED Réf.: 302510

Characteristics

Allows you to add color to cement floors, slabs, screeds, tiles, terrazzo, terrazzo, mosaics, coatings, plaster, interlocking paving stones, etc.

- The color remains stable regardless of the material used
- Wide variety of colors with strong coloring power

USE :

- The dye must mix with dry cement. Add the sand then the water last.
 - The dosage is carried out by weight in relation to the cement. The percentage ranges from 1 to 6% depending on the desired shade.
 - The rendering varies depending on the quantities of pigment but also the aggregates used. It is very important to carry out a test on a small area to validate the desired color before starting work. The density of the dye varies depending on the color.
 - Take into account the weight and not the volume
- In 1000ml jar
